

October 9-11 2024 | In-person at Duke University

**99 in-person** attendees over three days

26 completed the feedback survey

**89%**

of feedback survey respondents rated the Summit as **Excellent** or **Very Good**

### *What did participants like best about the Summit?*

#### Keynote Address

“Hard to pick just one- **loved Rick Shannon's keynote**, and the Duke experiences in AI speakers, and the interactive part today.”

“**The presentation by Richard Shannon was awesome** as it set the context to the scale of the problem in healthcare and AI-driven opportunities to address those problems.”

“**Keynote address and need to engage the user** to solve real problems. “

#### Interactive Components

“**I loved the interactive nature of the event, the facilitated discussion lunches**, and the opportunities to learn from others with various backgrounds.”

“**The hands on sessions** with support walking around the room and **the lunch discussions.**”

“**The fireside chats were excellent.** They provided insights and different perspectives on interesting questions.”

#### Breadth of Expertise

“I thought **the content and the variety of experience and expertise** represented here were fantastic.”

“**Bringing the different critical stakeholders together** to share the various insights, needs and challenges.”

“The ability to have conversations **across a wide-array of Duke and industry professionals.**”

#### Networking Opportunities

“**Networking and collaboration** with those in the same space but with whom I’ve not met or interacted.”

“**Opportunity to learn how other areas of Duke are approaching AI** as it creates avenues to realize efficiencies.”

“Diversity of points of view, breakouts, **opportunities to have meaningful conversations and make connections.**”
